Within the historical centre of Isle-sur-la-Sorgue in an architectural complex classified as an **Outstanding Heritage Site**, we find the workshops of the Brun de Vian-Tiran factory, founded under the First Empire. The company has been managed by members of the same family for 8 generations, and is carrying on the know-how and manufacturing excellence which go back to the early days of the town.

EVENTS

Reservation required

Share our passion during regularly scheduled events:

- participate in embroidery and weaving workshops,
- meet our skilled tradespeople during private Factory visits,
- enjoy an enquiry guided by Edgar the Sheep with your children...

460m²
of interactive displays

Wools, Merino, Mohair, Cashmere...
Spinning, weaving, making-up

DISCOVER

Time-honoured trades that pass on values creating a softer world

A Living Heritage Company

La filaventure

BRUN DE VIAN-TIRAN®

Passing on know-how to future generations, solidarity with animal breeders, exclusive choice of natural materials, eco-responsible practices... Because time-honoured skills are associated with local values, supportive, creative, and eco-responsible, they contribute to building the world we desire for tomorrow.

In one wing of the Factory, during a 1.5h tour via 460m² of interactive displays and educative multimedia where Edgar the sheep guides youngsters in an investigation, come and share our passion.

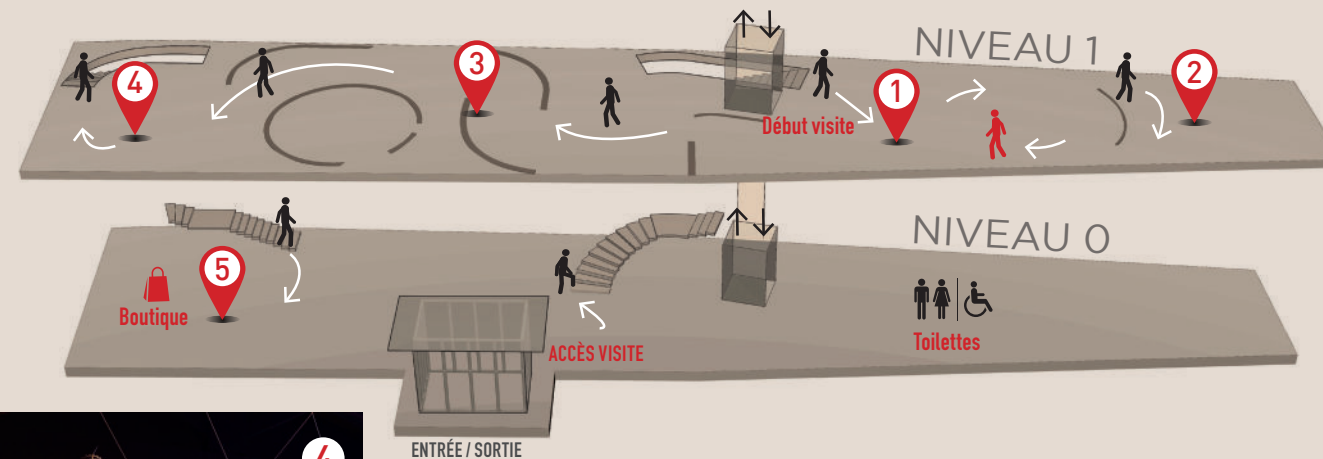

THE BOUTIQUE

In a nationally-classed industrial building, abandon yourself to softness in three worlds: in **decoration**, luscious throws to add to the soul of your home; **fashion**, with scarves and shawls to softly accompany you through your day; and the **night**, to gently envelop your sleep.

THE WOOL MARKET

Wools, Merino, Mohair, Cashmere... Follow us in our never-ending quest for rare noble fibres.

THE LABORATORY

Go backstage to discover our creation and design in collaboration with the top French industrial creation school.

THE MOHAIR CINEMA

Projected onto mohair thread screens, enter the imagination of Pierre and Jean-Louis Brun, 7th and 8th generations.

THE MAZE

Spinning, weaving, finishing, and making-up: go through our 15 scrupulously followed manufacturing steps.
